SAVUTI, CHOBE NATIONAL PARK | ACCOMODATION : CAMPSITE

Savuti is a region located in the heart of the Chobe National Park in Botswana, known for its diverse wildlife, stunning landscapes, and rich cultural heritage. This area is nestled in the southern part of the park, near the Savanah and grassy plains of the savuti marsh. It is a haven for wildlife enthusiasts, as it offers a unique opportunity to witness an abundance of wildlife in their natural habitat. From majestic elephants and intimidating lions to graceful antelopes and colourful birds, the Savuti region is teeming with a wide variety of species that can be spotted year-round.

One of Savuti's main attractions is "Pump Pan," a large waterhole that draws wildlife during the dry season. It's a prime spot for game viewing as animals gather to drink and interact, with surrounding plains hosting a variety of predators – perfect for witnessing thrilling wildlife encounters. Here you'll enjoy unforgettable experiences, top-notch amenities, and personalised service, creating memories to last a lifetime. Savuti is a place of unparalleled natural beauty and wonder, rich in wildlife from majestic elephants to elusive leopards. Mornings bring the soft calls of birds and sunrises painted in hues of orange and pink. The air is filled with the scents and sounds of the bush as you sip your coffee, ready for another day of adventure and discovery.

The region is well known for its large numbers of elephants and prides of lion.

CHOBE

BOTSWANA INFORMATION:

Situated in the southern reaches of Africa, Botswana is renowned for its pristine wilderness areas characterised by deep lagoons, wetlands, lush palms, rugged hills and desert plains. The country's primary tourist drawcard is undoubtedly the vast red expanse of the Kalahari Desert and its remarkably beautiful Okavango Delta, the largest inland delta in the world. These natural wonders provide a tranquil haven for an abundance of African wildlife to thrive. Other highlights include the impressive Makgadikgadi Salt Pans, where visitors are privy to massive zebra migrations during the flood season; the Savuti plains, which host a significant pride of lions; and the Tsodilo Hills, where 4500 rock paintings form a unique record of human settlement over many millennia.

best time to visit:

It's best to visit Botswana
between April and
October - usually the dry
winter months. At this
time, animals often stay
close to their water
sources, increasing your
chances of seeing them.
November to March, the
contrast is significant and
Botswana is a birders
paradise. Rainfall is quick,
although some roads
become more difficult.
Gameviewing is usually of
a high standard year round,
although easier to see in
the winter months
